The power keeps the nation running and the power plants are run by the linemen and linewomen who work all through the year to keep you comfortable, working even on holidays. Be it the grids crisscrossing above you or the lines running underground, the linemen keep things under control from the meter at your home to the power plant ensuring that you never have to give up on comfortable living on any day. While electricity brings comfort, it also requires safe handling and these linemen ensure that your electricity services run seamlessly despite any situation or circumstance. This is why they deserve a special mention and a day to honor the services they offer. The National Lineman Appreciation Day is observed to commemorate the services of linemen and linewomen who contribute tirelessly to the betterment of society. Though not all pictured are linemen, each one has a hand in making RCEC a success. We are proud of the hard work each and everyone of our Line crew puts in everyday!

Our office will be closed Friday, April 15th in observance of the Easter Holiday. Should you have an emergency, please call our after hours phone number at 575-356-4492
